

Will the broadcast flag interfere with consumers ability to make copies of DTV content for their personal use, either on personal video recorders or removable media?

I am opposed to the mandated broadcast flag system, it will just hurt the private consumer, the hackers probably already have a way around it

What will be the cost impact, if any, that a broadcast flag requirement would have on consumer electronics equipment?

i am a retired person on a fixed income who enjoys his digital entertainment immensely, and do not need any additional expenses.

Other Comments:

Please DO NOT mandate broadcast flags
